

F-SPA

Flexible Strip-Pack Applicator

The F-SPA Flexible Strip-Pack Applicator produces ready-to-display hanging strips of bagged products that promote point-of-purchase sales. The easy-to-operate unit delivers a unique and convenient way for retailers to successfully market your product.

● **Full Automation**

As part of a fully-automatic packaging line, Strip-Pack easily interfaces to any brand bagmaker, and can significantly reduce production time and labor costs.

● **Semi-automatic Operation**

Hand-feeding of bags into the system allows mix and match strip packaging of different products of the same bag size.

● **Versatility**

The number of bags per strip is adjustable up to 600 grams total, and a bag pitch range from 2" to 4" optimizes bag overlap spacing.

● **Variety of Strip Materials**

Ishida offers a variety of strip materials to meet different customer requirements. Bag film surfaces are not damaged when a bag is removed from the strip.

● **Convenient Machine Access**

The conveyor and other machine areas are easy to access for maintenance and troubleshooting.

DIMENSIONS (unit: mm)

SPECIFICATIONS

Model	Flexible-SPA Type-M	Flexible-SPA Type-S
Running Speed	80 BPM* (Mechanical max)	
Bag Width	127mm - 203mm (5" -8")	50mm - 127mm (2" - 5")
Bag Length	127mm - 280mm (5" - 11")	
Bag Weight	Up to 100g	
Power Supply	208VAC 3 Phase Power consumption 1.3kW 11A 50/60Hz	
Air Consumption	0.5Mpa 80NL/min (Dry air)	
Options	In-line conveyor, Transformer, Incline conveyor
